

Why Roswell:

The Untold Story

World Renown Roswell

The very mention of Roswell conjure up visions of Gray Aliens and crashed UFOs in the minds of most people across the globe. The recent popularization of the alleged events of 1947, have reached the entire world. More than just the debatable event, there is a message that comes attached to the crash and the idea of Aliens from outer space with a mission. This message is one that opposes any and everything against a belief in a personal God as Creator and provider for His creation. Roswell has become the Mecca and global origin for all things UFO and Alien. Did this fame happen by chance or was Roswell part of an ancient plan spanning thousands of years in the making?

In this series about the Roswell Crash of 1947, we will discuss the historical events in brief and pay more attention to an unknown history behind the events that led up to the crash. We will also discuss recent discoveries in the Bible that describe the results of the aftermath of this crash. Other prophetic texts of scripture describe in detail many of these unknown historical events as fulfilled prophecy leading up to the appearance of the Antichrist and the return of Jesus Christ in the last days. These amazing discoveries can give us a clear picture as to why there was a planned crash near Roswell. We can also discover just who these Gray Aliens are, and what their agenda for this world is. Added to this discussion will be my own personal insights and investigative results from living in Roswell for four years and the personal interviews with firsthand witnesses, as well as meeting many others involved in the investigation of this phenomena.

The Historical events accepted by Believers in the "Roswell Incident".

Problems of Accuracy

The Roswell story of a crashed UFO has been one of much controversy and very difficult to sort out. Some of the problems creating this unclear picture are embellished stories, details with no conclusive evidence, deliberate false information proclaimed for personal gain by unscrupulous researchers and individuals seeking fame and fortune, and a large amount of disinformation distributed by our own government. To add to this, over sixty years have now gone by with most first hand witnesses deceased. De-bunkers and the news media make the whole subject something on the lunatic fringe and do more to discourage the truth than the government..

Yet in spite of these difficulties there does remain enough evidence that something out of the ordinary happened near Roswell in 1947. In this short series, I have reduced the details to the very basic elements that have survived most of the controversy and included details that are debatable for your awareness. My personal thanks goes to the aid of Dr. Stanton Freedman. He was the first and original researcher to re-open the Roswell event and offers the best first hand witness to this whole situation.

The Story

On Wednesday, July 2nd 1947 Mr. and Mrs. Dan Wilmot sighted an oval shaped UFO flying overhead near Roswell New Mexico. Later that day William Woody and his father spotted a bright object with a red trail northwest of Roswell. At the same time of the Woody-sighting Mac Brazel, a rancher near Roswell New Mexico heard a loud explosion occurring out on his ranch. On July 3rd Brazel discovered the debris of an unusual wreckage on his ranch. Motivated by a reward for physical evidence verifying the existence of flying saucers, Brazel delivered some of the wreckage to Chaves County sheriff George Wilcox. Wilcox immediately contacted the Intelligence Office at Roswell Army Air Field.

Major Jesse Marcel, Intelligence Officer of the 509th Bombardment Group of the Army Air Corps (the only Atomic bomber wing in the US ,based in Roswell), was sent with CIC agent Cavett by the base commander Colonel Blanchard to check out the rancher's story on July 6. The Roswell Daily Record quoted Public Relations Officer Lt. Walter Haut, at RAAF:

"...the Intelligence Office was fortunate enough to gain possession of a disc thru the cooperation of one of the local ranchers and the sheriff's office of Chaves County..."

July 7th Wreckage taken to RAAF

Following the announcement of the discovery the official account takes a sudden turn with the military going into full damage control to discount the story. July 8th The next highest chain of command to the local military authority in Roswell was General Ramey of Ft. Worth Texas the commanding officer of the 8th Army Air Core. He put an abrupt stop to the Flying Saucer story. Major Marcel is sent to Ft Worth and brought out before the press to reveal broken pieces of a weather balloon as Gen. Ramey explains away the original Headline story of the flying saucer as that of a "weather balloon". A retraction was also printed in the Roswell Daily Record on the 8th. In addition to the retraction, many eyewitnesses who collaborate Marcel's story were now silenced with intimidating threats. Swept under the rug the incident went unnoticed or discussed until decades later. Retired from the military, Jessie Marcell after thirty years of silence decided to talk about what really happened in 1947 in Roswell.

Can't Hide the truth

30 years after the Roswell incident, Jessie Marcel granted an interview with Physicist/UFO investigator Stanton Friedman, whereupon Major Marcel stuck to the original story. Now the word is out and the public is aware that something indeed happened at Roswell in 1947. Other Roswell residents and military personnel also come forth, offering their accounts of the Roswell crashes. Eyewitnesses describe the wrecked flying vehicles shaped similar to our modern day SR-71 as well as seeing the remains of small gray bodies found at the sites. The local mortician in Roswell, Glenn Dennis, tells of a request by the Army base for child-sized coffins. Pieced together, the collaborating eyewitness accounts add up to a story truly out of the ordinary. Years later, Retired General Thomas Deboise, second in command to Gen. Ramey, admits the weather balloon story was a cover and that the Roswell incident was given an above Top Secret classification. Despite the wide variety of theories that have evolved, the only thing for certain is that there was a cover up of an extraordinary event.

The Skeptics Reply

For years skeptics have claimed the crashed weather balloon story was actually all that happened and the whole UFO incident was a non-event myth. Trying to take the higher ground of logic and reason they claim that the whole incident was simply a mistaken identity. Suddenly when the Government admitted that the weather balloon story was a cover to hide a top secret government program to spy on Russian space and atomic programs named Project Mogul, skeptics without explanation jump on this story. Once again presenting no facts and boasting of their credentials, they take this higher ground of logic and reason to enlighten the rest of us of what we should already know. It is interesting that their credibility factor is never called into account for being hoodwinked by the government. They just continue on as the official "experts" of logic and reasoning as skeptics. Most of these skeptics are arrogant self willed people who do not believe in anything that is not in front of them and their five senses. They have no belief in a spiritual realm and have a very dim view of anything supernatural, including "Born Again Christians" who talk to God.

Anyone who has bothered to investigate this event and the people involved can usually get past their sense of logic and reasoning to find it takes more blind faith and nonsense to even consider some of their claims.

Why I believe something extraordinary happened.

Too many good people involved to be a mistake or lie

To discredit the majority of people who have testified to what they have seen as mistaken identity is both illogical and arrogant. Jessie Marcell Jr is the the son of Maj. Jessie Marcell head of Roswell Army Air Bases security. As a young boy, he was shown parts of the wreckage by his father. I met him in 2006 at the Denver MUFON meeting. He strikes me as a military man sworn to be loyal to his country. Without any compromising on his part, he described what his father gave him to look at from the wreckage. He described the memory metallic sheets that always went back to it's original shape, he described the bar with writing on it, which certainly was not balsa wood and Mylar. He was a war veteran Doctor and military officer retired like his Dad. He is an intelligent man capable of knowing what he experienced and saw and could easily discern that there was nothing ordinary about what he saw. I got the impression he knew more but that he was going to remain like his Dad, loyal to his governments wishes, divulging only what and when he was told to.

Major Jessie Marcell

Now let's consider the account of Maj. Jessie Marcell. He was the head of base security and intelligence for the only atomic bomber wing in the entire world. Our militaries top leaders are not so careless as to put some novice in charge of the most important kept secrets of that time. In fact, quite the opposite, they would make sure they had a loyal top man in charge. Farmers and locals were familiar with weather balloons as there was a standard reward for recovery of them given by the military on a regular basis from the RAAF, nearby Alamogordo and the White Sands testing grounds. Marcell would certainly know the difference and could not make such an obvious mistake. Project Mogul consisted of common elements that would in no way act like the testimonies given by Marcell, his son and others who claimed to have seen the wreckage. To say otherwise is to call these people liars or stupid. I have come to know a few of them and they are certainly not either! After such a horrible mistake, you would expect Major Marcell to be disciplined and reduced to a position of lesser responsibility. In fact Marcell was promoted in rank and given a cushy job in the Pentagon! He was rewarded for being a faithful fall guy and a "strac trooper".

Project Mogul

Project Mogul is just another smoke screen and back pedaling attempt by our own government to hide what really happened. Here is some simple logic that explains away Mogul that skeptics seem to ignore. If something like Mogul was that secret, you know that even in 1947, we had tracking abilities to know where a secret project was every inch of it's journey. We would have already developed a contingency plan to recover a crash and keep everything secret. The government would know exactly where that balloon was every inch of the way until it reached it's Russian target. That is just the way we do things in this country. There would be no such thing as a lost balloon. No one was looking for anything until Mac Brazel brought in pieces to the Air Force and through Lt William Haut made the event public. Our government was clueless until that time that anything had happened. If a spy balloon would have gone down, there would have been a massive search and a contingency plan with a cover story created as a back up much like the Kecksburg PA crash. Everything would have been removed before Mac Brazel was ever out of his bed. He would have never found anything as it would have already been long gone. To suggest that the little bodies were mistaken crash test dummies is beyond belief if you actually investigate the facts., These dummies were not used by the military until 1953 and never in 1947! So you tell me who is lying and who lacks common sense or logic?

[END OF PART 1](#)

[PART TWO](#)

Personal Testimonies and relationships

The most compelling evidence for me is one I cannot prove. I have had a chance to talk to a few key first hand witnesses that once they found out I wanted them to go public they refused and withdrew any further comments. They were not afraid of government retaliation but rather public embarrassment with being associated with such a thing as UFOs and Aliens. One was a person who is related to the scientific academic community in Roswell. From such a social position they avoid this controversy with guarded caution. It was only because we were members of the same church that anything was said to me in confidence. This person was just a young child in 1947. Her parent's were best friends of the owners of the property in Corona where the object crashed. What was especially interesting to me was that they were all devout Christians who had a faith in their born again relationship with Jesus. She overheard the owners of the Corona property talking to her parents about the little gray bodies that they had seen removed from their place. In context, they were wondering how these beings fit into a Biblical view. Everyone is deceased except for the little girl who is now an elderly woman still living in Roswell. She has a valuable testimony that will never be heard or at least verified as she would never expose her family name to such an association.

Another testimony came from an elderly man who used to work at the Roswell Army Air base in 1947. He stayed in Roswell after his discharge to become a local resident. He told me that during the time this crash was supposed to have happened he saw increased activity of officials and others at the base. He said he was one of the crew members that flew big boxes from the Roswell base to Wright-Patterson Base in Ohio. Wright-Patterson is the base for back engineering any kind of enemy or foreign aircraft captured or found. He was a senior member of my church in Roswell and in his late 80's. He certainly had nothing to gain by telling me his story. He declined to make this public, and he was the only one who was nervous about what the government might say. He was never sworn to any secrecy as he was never really exposed to anything classified, and never actually saw anything but big crates and boxes. For the time period and destination, that was good enough to confirm something more than Mogul or weather balloons came down in Roswell in 1947.

Many other residents who were teenagers or children old enough to remember this time period in Roswell have confirmed seeing heightened activity at the air base and seeing military personnel restricted travel near the crash site. This also is compelling evidence that something more than a balloon came down there.

Evading and confusing the Truth

The only ones who seem to keep changing their story and adjusting themselves to new findings are the military and skeptics. I am convinced that something very real and tangible crashed in the desert near Roswell. The many witnesses I had a chance to talk to are normal everyday people who are intelligent enough to distinguish between balloons and unknown artifacts. To discredit so many sound testimonies, I have to ask the skeptic what is your discernment and standard. Who set you as some official to determine so many testimonies as true or false. What special gift do you have over the rest of us that makes you able to make such judgments? Other than your own self importance and arrogance you probably have a pay check from Uncle Sam as your only support for such unfounded claims.

What crashed may have been unearthly, and I agree with the skeptics on one point, there is no evidence that it was alien. There is much more evidence for another origin and one that only recently has been made known to the public. I am not the first to discover this earthly origin but I am the first to tie this into specific prophetic scriptures in the Bible as prophecy fulfilled. Next let's take a look at some unknown history behind Roswell in 1947.

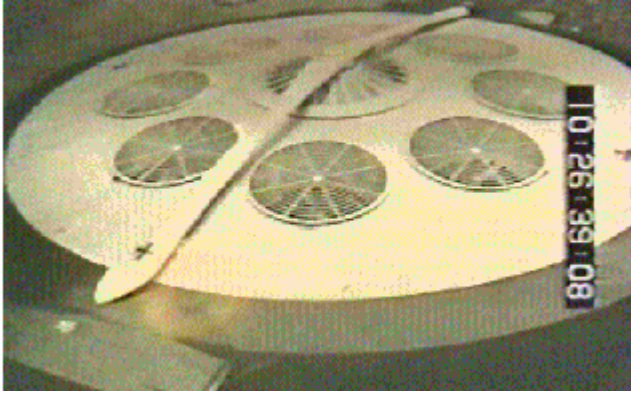

Secrets of the Highest Level of the Defense Department

Throughout the Roswell incident, a portion of our government made every attempt to cover up the crash and to silence witnesses. Was this an attempt to conceal a secret technology from the public or competing world powers? Or Perhaps the U.S. was aware of a hostile country already in possession of similar technology.

In fact the United States was well aware of a foreign power in possession of flying disc technology. As the world cel-

celebrated victory over the Axis Powers, the highest level of the U.S. government intelligence, had a guarded concern about Nazi Germany. American forces discovered prototype rockets and experimental disc aircraft developed at the Nordhausen underground complex. All of the aircraft were of conventional propulsion. What was disturbing was the discovery of plans for electro magnetic anti gravity propulsion units, even more alarming was the means in which the Nazis obtained this technology.

Based on intelligence gathered by the OSS, the US was well aware of the Nazi's Occult beliefs. The Nazi's were convinced the Earth was hollow in which an Aryan Empire existed that controlled a power called the "Vril". It is conceivable the Vril power was another name for a form of anti gravity technology. Occult prophecies also assured an alliance between the Nazi's and the Aryans, as well as victory. Furthermore, Nazi Aryan myth claimed the people of Tibet and India were the original blood link relation to the Aryans and were therefore referred to as, "Spiritual Aryans". The Hindu and Buddhist religions reflected the subterranean Aryan's religious beliefs. The Nazi's also believed that Tibetan Monks had knowledge of the underground domain. According to Buddhist prophecies the Nazi's were the ones expected to come and complete their fifth Dharma cycle of man. So, in 1936, the trail of Nazi researchers of the SS Ahnenerbe led the OSS to follow the Nazis to the Asian people of Tibet and India.

Upon arrival, the Nazis were welcomed with open arms. Tibetan monks gave the Nazi researchers many of their ancient texts, some of which described an inner earth. During their visit the Nazis conducted experiments in the vast caves of the Himalayas and brought back test results of the earth's magnetism (Vril power?). Upon the return to Germany 200 monks accompanied the Ahnenerbe. The monks were commissioned as SS officers to work at Wevlesburg Castle, Himmler's Occult center. Further research by the Ahnenerbe indicated an opening to the inner earth within the Antarctic. They believed this led to the mythological Aryan capital of Thule. In addition, we later learned (from the Hartz mountain complexes) that the Nazi's had the capability to excavate huge underground complexes. This explains why in 1938 the Nazi's sectioned off an area, Queen Maud Land in the Antarctic and re-named it Neu- Schwabenland. Allied intelligence traced a great deal of submarine activity in this region before and during the Second World War. Submarines captured or sunk in or around the Antarctic during the war usually had an overload of people and supplies. All of which indicate intense activity in progress somewhere in that region. The mysteries discovered at the war's end, coupled with the great amount of submarine traffic allude to the possibility of a massed colonization-taking place from Germany to the Antarctic.

What really happened in the Antarctic like the Roswell crash may never be known in detail. The serious yet secretive actions of our government responding to the bizarre actions of the Nazis may be enough of a smoking gun. Something extraordinarily unusual happened. Now, after the fact the specific occult beliefs have a paper trail and documentation easily available to all. I would suggest the insightful books, *Unholy Alliance* by Peter Levenda, *Man-Made UFO's* by Renato Vesco and *David Hatcher Childress, Hitler's Flying Saucers* by as an excellent source of further information.

Officials Make Comments:

In a very generalized manner, a couple of quotes allude to confirming some of the afore-mentioned findings. Great

Britain's chief of the technical mission to Germany for Aircraft Production in 1945 said, "I have seen enough of their designs and production plans to realize that if they (the Germans) had managed to prolong the war some months longer, we would have been confronted with a set of entirely new and deadly developments in air warfare."

Captain Edward J. Ruppert, Chief of the U.S. Air force Project Bluebook stated in 1956, "When World War II ended, the Germans had several radical types of aircraft and guided missiles under development. The majority were in the most preliminary stages, but they were the only known craft that could even approach the performance of objects reported to UFO observers....."

[So if the Nazis had such technology, why didn't they win the war?](#)

Why Didn't the Nazi's Win the War?

It is only logical to consider that if Nazi Germany developed such a vehicle, why didn't they win the war? The problem is one that really doesn't take a physicist to understand.

These craft are flying or slipping through the Earth's gravity by creating their own gravitational field separate from the Earth. Much like wet hands lathered down with soap tries to pick up a bar of wet soap. The firm action of pressing down to seize the soap, would only spit the soap from between the slippery hands. With this understanding, you realize that you are not going to be able to send a projectile of any type through one field into another. Guns or Cannons mounted on this craft could do nothing to shoot an enemy down. The thrust forward from the projectile would send the craft backward with an equal reaction.

This would mean that this craft could not be used as an offensive weapon. Anyone who understands Hitler knows that if a weapon was not offensive it was not a top priority. All the Nazis had at that time was a fast-moving, shiny craft that looked good but could do nothing to "shoot" an enemy plane or even ram another aircraft. The technology was developed too late to effectively accomplish anything for the war effort. But another plan could utilize the craft to change the hearts and minds of the enemy. We will see this after reviewing some unknown and seemingly unrelated events behind and before the Roswell incident. When put together, it has a logical flow of cause and effect.

[END PART TWO HERE](#)

A History you were never told; events leading to Roswell 1947:

The following is a series of events that might seem unrelated. They are bits of history that when put together, reveal the fearful background in the minds of our leaders leading up to the Roswell incident. In the early years after World War II, only our military leaders had privy to some of what are now easily documented events.

Summer of 1943: Project Rainbow was a government backed experiment that included Scientists, John Von Newman, Nicola Tesla, and Wilhelm Reich. Albert Einstein was also used as a consultant. Tesla's coils and Reich's understanding of "Orgone" was a part of this project. The Rainbow project involved the creation of intense electromagnetic fields and something went very wrong. This failed project was perhaps the first experience the US had that was similar to the later German research they would soon discover.

Winter-1944: While flying bombing sorties over Germany Allied bomber pilots sight "Foo Fighters", which they described as small shiny glowing objects. The "Foo Fighters" were able to match the flight path of the bombers while disrupting the plane's electronics and navigational systems. Furthermore they were capable of responding to sudden changes in flight patterns as well as attempts to shoot them down. Since they made no aggressive attacks they are only met with curiosity.

April, May-1945: Dr. Werner Von Braun (creator of the V-1 and V-2 rockets) along with the majority of his team of

scientists from the Peenemunde missile complex surrender to American forces to avoid capture by the Russians. The relinquishment of this team whets the appetite for America to develop their own missile and jet programs which eventually led to NASA and the space program..

June-1945: American forces enter the huge underground complexes at Nordhausen in the Alps. They capture V-1, V-2 and prototype V-4 rockets. Many experimental aircraft are discovered, including disk, and triangular craft. All featured either piston or jet powered forms of propulsion. Allegations have been made about the discovery of blueprints and documents describing an anti-gravity propulsion unit as well as plans for the peacetime exploration of space. Rumors of time travel experiments with the so called Nazi Bell , cloning and various mind control experiments were included as potential spoils of war within this shop of horrors. At the same time, over 200 of the newest model 21 submarines are missing from their pens. The entire German Bank was missing! (Guinness book of world records lists this as the largest unsolved bank heist in history!) Over 2,000 Nazi scientists were missing and almost 200,00 people from the general population and women from the Ukraine were never found. This figure did not include war dead, POW's and MIA's already accurately recorded.

Fall of 1945: SS General Reinhard Gehln, head of Nazi Intelligence-Eastern Division, surrenders to the Americans. He "cuts" a deal to pardon both himself and his staff in exchange for Nazi intelligence accumulated on the Russians and the chance to teach Nazi intelligence methods to the OSS. The information garnered on the Russians as well as the discovery of unknown research projects under development by the Nazi's makes a profound impression on U.S. intelligence. With a desire to emulate Nazi intelligence and security, Reinhard Gehln is enlisted to create the same operational system for the US. This results with the OSS evolving into the CIA. Part of this transition includes the release of hundreds of Nazi war criminals into America, posing as free citizens and operators in our own national infrastructure in the highest level. In 1949 almost half of the operatives were ex-Nazi agents

Late 1945: Following the surrender of Germany, U-boats U977 and U530 surrender to neutral Argentina. The U.S. sends a commission of high-ranking officers to investigate the acquiescence of the submarines. Both Captains were held in custody for two years and questioned about the whereabouts of Martin Borman, the body of Hitler, as well as a possible location of the last bastions of Nazi's somewhere in the Antarctic. The commander of U977 Captain Heintz Schaeffer, was familiar with the Hartz mountain complexes; the model 21 subs and had experience with patrolling the Antarctic. Following the grilling by the U.S. commission, Schaeffer was given over to the British for further interrogation.

December 1945 A squadron of Trainer planes disappears over what is to later become known as the "Devils Triangle". The planes that got "lost" somewhere off the Florida coast reported the same navigational disruptions that effected Allied bombers over Europe. Similar effects were said to resemble the Philadelphia experiment.

Late 1945,46 and 47: From the discovery of undetected and unknown technology that the Germans were working on, a race began to procure the scientists, engineers and remnants of projects and related paperwork. Russia, England and the United States comb Europe and South America. Projects Sunrise, Lusty and Paperclip pardon many Nazi Scientists and engineers, granting many American citizenship and positions of authority. In 1947 most are stationed at White Sands testing grounds or next door in Roswell New Mexico. To supplement their income they were encouraged to teach at many of our Universities. Future results of this infusion, positioned many of these people in top CEO positions in American corporations, Top educators in our universities and Intelligence operatives and leaders in our civilian and military security organizations.

Spring 1947 During a flight over Mt. Rainier businessman and private pilot Kenneth Arnold sights "Flying Saucers" flying in formation. The official term "Flying Saucers" is coined from this event. U.S. intelligence officials, with knowledge gained from captured Nazi documents showing similar craft, had to wonder if the sighted objects were not operational versions of the drawings from a possible last bastion of escaped Nazis.

February 1947: Operation Highjump, a major expedition to the Antarctic, is set in motion. Admiral Byrd, our only expert on the Antarctic, commands the expedition. Equipped with 13 ships including an aircraft carrier, two planes and 4,000 ground troops, the convoy steams to the Antarctic. The public is told that this was a scientific expedition to "test" military equipment in extreme cold conditions; the expedition is outfitted for 8 months. . This would not seem unusual in normal times, but at the end of a war with two continents ravaged by war, a slumping economy struggling to incorporate millions of people back to work in a peace time world is not the environment to place a large amount of money and resources into aesthetic scientific research. Several needed ships were rush ordered and completed from the San Diego docks and put into action. The entire armada was military and accompanied by support vehicles typical of a combat unit. There were no specialized research ships among the 13! The entire expedition maneuvered like a military assault force. They made a two-point landing converging on the area named "Neu-Schwabenland". The expedition returns to America a few weeks later after suffering heavy losses of equipment. En route back to the US a Chilean newspaper claimed a ship to shore conversation with Byrd where he warned that in the future we would have to contend with aircraft that could fly from pole to pole in a matter of minutes. This was later denied and no evidence came forward. Washington censures Admiral Byrd to be silent about the failed operation. Nothing else was ever mentioned in the press about the expedition. The end result was another cover up with wild rumors, conflicting testimonies and dead ends that have reached mythical proportions which continues until today with operation Highjump.

July 3rd, 1947: The wreckage of the now famous Roswell crash is discovered and then covered up by the U.S. Military. Until the crash the minds of U.S. intelligence were fixed on finding the Nazi's and their amazing technology. However now the U.S. Government is aware of a possible alliance between the Nazi's and "Reptilian Grey aliens". Our Military believed they now faced something bigger than they could ever have imagined. This position made them reconsider everything, including opposing the fleeing enemy! A willingness to negotiate the best favorable terms for our own interests may have resulted due to the Roswell crash. In their minds a possible last bastion of Nazis escaped and are in an alliance with aliens! This was a planned event to scare the living hell out of the leaders of the United States of America and it worked.

1952: Following Operation Highjump Admiral Byrd became a major proponent to establish the Antarctic as a nuclear test zone. In 1952 a bill was on the Senate floor to establish this site. Weeks before the vote, the Capitol was buzzed by many UFO's flying in a typical German formation. As interceptors were dispatched to confront them they simply "blinked" out. Once the jets returned to their bases, the UFO's reappeared. This happened several times the same day. Shortly after this event the bill was dropped from the Senate floor. This presence may have caused a stale mate between the powers of the US and the Last Bastion of Nazis in the Antarctic.

Unorthodoxy to the Max

A terrifying position to be in!

What our leaders faced at the end of the war was bizarre to anything considered "normal", yet they were serious in their approach to prevent it from harming the US. They were confronted with a last bastion of a fallen enemy who's belief in a hollow earth, Alternate Occult Pseudo sciences of light, sound, mind control, cloning, time and space, and possibly all coming from (after the Roswell incident) an alliance with Aliens. This put our highest level of security in a near panic!

Silence of the Damned

The reason no one heard of these bizarre actions and beliefs is because a censure was placed on them by Winston Churchill. He feared that if the specific occult beliefs and actions of the Nazis were released to the public, many Nazis facing war crime trials in Nuremberg could plead insanity and get off. There was a known traceable paper trail of evidence for all of it and after 60 years much of the specifics have come out as nothing more than a footnote in a past forgotten history. This information however, is vital to understanding the Biblical significance to these and fu-

ture events as a result of the whole Nazi régime and their occult based technological discoveries.

Roswell was Pivotal to The United States Highest Leaders

Roswell merely convinced those in the know to rethink and re-evaluate everything they once thought they knew. These revelations from the Third Reich gave our government officials the desire and drive to secure this superior knowledge and technology before our new enemies, The Russians could also discover them. The Roswell crash was a carrot dangled before the hungry rabbit, This began the compromise which hatched the plan of the enemy Satan and his fallen angels to undermine and transform the victors of World War II from within. Driven by fear and lust, the US government delved into a search for this knowledge and considered occult practices, eastern mysticism and many other fringe concepts only vaguely known to the western mind.

[End of part three](#)

Skeptics Proclaim Nazi UFOs are a failed program, end of story.

Skeptics will claim that as we tried to back engineer what we found at the Nordhausen complex, all the projects failed. They also site that most of the engineers captured or surrendered had conflicting and embellished stories. In all of the end results and the behavior of these captured experts, they claim that there is nothing more to the idea of Nazi UFOs. Again let's use what the skeptics claim to use and yet do not, some simple logic and reasoning.

Imagine yourself as a German scientist or engineer working for the Third Reich. Your life's work is wrapped up in your job with the Nazis, suddenly your boss blows his brains out and there is a hostile takeover of the company you worked for. You are out of a job and lose your life's work and funding unless... you have to convince the new owners that you have something they need. Working for the Nazis your integrity level is not a big concern so you are more than willing to embellish and adjust your resume to secure a new position. The trouble is so is everyone else around you. It would be a feeding frenzy and exactly what happened. The conflicting stories and lesser integrity level does not negate the truth about Nazi UFO's, it confirms it.. They behaved exactly like we should expect them to and did exactly what anyone in their position would do. This has nothing to do with the reality of the technology, other than we did not get complete information or the real stuff, and has taken years to for us to catch up with the fragmented knowledge that we did find.

I worked in the auto prototype trade in Detroit for ten years and understand a few things about the whole Research and Development process. The reason none of the back engineered projects worked is because they left partial incomplete and unnecessary projects behind and took the good stuff with them. What we found was the junk and leftovers. The same could be said about many of the technical people that left behind. The most important key people disappeared with their leader SS Dr. Hans Kammler the highest officer of Nazi "Black Ops type projects"

The biggest proof of the continuation of the Nazi UFO program is in the sudden Alien contact with Nordics and their theosophical message, which started right after World War II.

Changing the hearts and minds of your enemy

From 1946 to the late 50's suddenly people called contactees, encountered Nordic type Aliens in spacecraft described and drawn which looked like the captured German prints after the war. These Nordic blond hair, blue eyed Caucasian occupants spoke with a Scandinavian or German accent. They began to proclaim warnings about nuclear testing and proclaimed Theosophy as the religion of the rest of the cosmos. Theosophy is a combination of Buddhism, Hinduism and Taoism as defined by Helena Blavatsky. in her book, "The Secret Doctrine". It is the Philosophi-

cal essence of Nazism and the foundation of everything "New Age" This message slowly crept into the scientific investigation of UFOs that once consisted of professional scientists and researchers who were not afraid to confront the unknown.

In my research of the early contactees, I found that in almost every case, the most popular Contactees like George Adamski, Jack Parsons, L. Ron Hubbard, Daniel Fry, Howard Menger and George Van Tassel, all of them had ties to occult lodges, secret societies and Nazis. This cannot be any coincidence. There attempts to change our thinking was not well received by serious UFO investigators at first, but a second wave of abduction cases would soon change all of that.

Two Camps become One

When UFOs were first sighted, it was nut and bolt scientists with an open mind and persistence to find answers that were involved with the investigation of UFOs. The Contactee's of the 50's and 60's were always looked at as kind of out there as kooks as they mixed metaphysics and pseudo eastern religious beliefs into the "message" of the Aliens. There was no proof or evidence to their claims and therefore rejected by most within the UFO community at that time. The two camps and believers were separated from each other. Conventions and Seminars were either of one camp or the other but never together.

As the Abduction experiences became more known and increased in number, many cases included physical evidence and even multiple witnesses. The spiritual messages given to abductees were the same beliefs proclaimed by the contactees. This gave a new credibility to the same occult religious ideas of the contactees of the prior two decades from the 40's and 50's. Now the blending of the two camps have become as one. There are some of the old time researchers that want to distance themselves from the metaphysical beliefs but they are now the minority. The metaphysical new agers have now become a predominate force within the entire UFO community. In a sense they are researching two different aspects of the same phenomena.

The whole phenomena can be broken down to three aspects. You have the vehicle, the messenger, and the message. You cannot separate one from the other as they are all part of the whole phenomena. It could be compared to like this:

Imagine: You are a reporter sent to cover the arrival of the President and his new message. You already know the message and do not like it or the President. So you ignore the two and concentrate your efforts on describing the vehicle he drove in because you really like it a lot.

Now this kind of behavior is not very logical. Yet, this same lack of logic is being exercised within the UFO community. If you are embarrassed or not comfortable with the message, you should examine why you feel that way. Some even disbelieve the other two elements even exist, as if they will then just go away, but you cannot separate them. This should cause you to examine the messenger better to determine why you do not like the message. You cannot say the messenger does not exist because you don't like the message, it is part of the whole experience. This should cause your eyes to be taken off the vehicle as less important than the messenger and the message. If you examined the messenger and the message with the same scrutiny as a trained expert the way you do with the vehicle you would have to be open to all data including the Biblical perspective. Then you might find the answers to the whole phenomena. As it remains today, there is only one perspective about the who the Aliens are and what their message means to us today. What is learned, heard and accepted within and by the UFO community today is one proclaimed by the Abductors themselves! How one sided and single minded is that? It is the ultimate naivety exercised by highly intelligent people.

If I can have your patience with this next section please. This has more to do with psychological conditioning than

UFO's but it is vital in understanding what is happening on this level after Roswell, and to recognize the prophetic scriptures warning of the end results of this kind of infiltration and conditioning.

A ripple effect begins to sweep the country

After Roswell our elementary educational systems began teaching evolution as a fact and threw out creationism. Our universities began teaching eastern and occult based concepts as equal to traditional Judeo-Christian values and eventually tearing down the traditional belief systems. Theological seminaries began a liberal movement of "modernism". Organizations like the ACLU came into existence for the sole purpose of destroying traditional values and beliefs that were the culture and heritage of America. The lie they base their attack on has become their battle cry, of "separation of Church and State". Did you know that is not in our Constitution and never has been? This was a miss quote from Thomas Jefferson writing a letter to a Baptist minister assuring him of just the opposite, that government would and could not interfere with religion! That is how effective their brainwashing has become! American corporations became international and like an amoeba, began engulfing private owned American farms and businesses. Today the middleclass private owned America is almost gone. We are becoming dependent upon International corporations for all our needs and resources. Our military intelligence agencies became internationally powerful with secrets keep even from US Presidents. All of the evidence began to point to a government within a government with conspiracies like the JFK assassination The Warren commission with a body count of conflicting witnesses equal to what the former Nazis committed. Waco, Okalahoma and perhaps 911 have hints of a bigger hand behind the scenes.

From the programs that introduced these former Nazis into the US, they prospered and filled positions of power and influence in the highest levels of our countries infrastructure and became a fifth column of a Forth Reich. Without realizing it, we brought over the very infrastructure of Nazi Germany into our own homeland. These individuals, in 60 years helped to turn the Judeo-Christian America into a New Age America. We have now become what we once fought on a battlefield against.

The same but opposite as a consistent pattern

The fall of the Nazi empire and the taking into ourselves the Nazi scientists and intelligence officials as the spoils of war is a pattern that happened before. Rome and Israel had no love for each other. Under Roman rule the Hebrews because of their faith in God, were hard to control and made life hard for the occupying Romans. In 70 AD Titus came down and destroyed Jerusalem burning it to the ground and tearing the Jewish Temple apart brick by brick just as Jesus had predicted. First they defiled the temple by placing a statue of Zeus in the Holy of Holies and putting the various Roman legions banners upon the ramparts of the outer walls in mockery to the Jews. The Christian Hebrews who remembered Jesus' warning that when you see Jerusalem surrounded, flee to the mountains, well, they left and fled right into Rome and the eastern provinces. They spread Christianity throughout the Roman empire, then under Constantine, a perverted form of Christianity, The Holy Roman Empire came into existence. This was a blending of Paganism and Christianity which became the official Church / State. It only happened as the results of the destruction of Rome's enemy Israel as many fled right into Rome itself and in time changed the empire from within. The belief system of Judaism was based on a national identity and specific blood line. In Christianity that same message was changed, now based and offered to who so ever will by faith in God and his messiah Jesus Christ.

Unfortunately under the Holy Roman Empire's rule, the message of love and forgiveness was only a veneer covering the corrupted system of death, destruction dominance and greed to control the world.

In the same way, As the allied invasion overran Germany led by the United States, we took the very essence of Nazism into ourselves through the cream of the indoctrinated crop of scientists and intelligence officers. Theosophy under the Nazis had an emphasis on a national identity and based on an exclusive bloodline. What was taken into the US was a completion of the Old Testament version of Theosophy transformed into one offered to who so ever

will based on a spiritual offer by faith in man to ascend into godhood . The New Testament version of Theosophy is based on a false appearance of Love, but is only a veneer covering the same Theosophical beliefs which will lead to death destruction and world dominance.

"When a movement harbors the purpose of tearing down a world and building another in its place, complete clarity must reign in the ranks of its own leadership with regard to the following principles: In every really great world shaking movement, propaganda will first have to spread the idea of this movement. ...to make the new thought process clear to the others, and therefore to draw them over to their own ground, or to make them uncertain of their previous conviction... If propaganda has imbued a whole people with an idea, ... which should lead to its universal recognition, ...It must not only occupy all the important positions of the conquered territory with the basic core of the old movement, but also constitute the entire leadership. ...The second task of propaganda is the disruption of the existing state of affairs and the permeation of this state of affairs with the new doctrine,... when the new philosophy of life as far as possible has been taught to all men, and if necessary, later forced upon them, ...This, however, in turn occurs for the most part only in mutual struggle, since it is less a question of human insight than of the play and workings of forces which can perhaps be recognized from the first, but cannot forever be guided...All great movements, whether religious or a political nature, must attribute their mighty successes only to the recognition and application of these principles, and all lasting successes in particular are not even thinkable without consideration of these laws."

.....from Mien Kampf, by Adolph Hitler.

This explains the entire history of the United States of America in the last 60 years after the Roswell Incident, aided by Operation Paperclip. and the Gehln organization compromise. Now for the most amazing section of this video, I will bring everything I have shared with you so far, back to the scriptures. Every aspect of this story has prophetic scripture to support the claim that these events are their fulfillment.

[End of part four](#)

[Part five](#)

The Biblical account of Roswell

In the first Indiana Jones movie, Raiders of the Lost Ark, we saw Nazis in the desert searching for ancient relics. This fictional movie was describing the real SS Ahnenerbe, this branch of the SS was sort of a Nazi academy of science. They believed that a golden age of the gods existed in the ancient past where a hybrid race of super humans, the Aryan once ruled from Atlantis. They were in the possession of a power called the Vril-ya which by description, was an electro-magnetic form of energy that defied gravity and other natural forces. They believed that in ancient ruins from the past, encrypted in various relics, was the knowledge of the physics to rediscover the technology and through controlled genetics, bring back the Germanic peoples to this glorious height of human evolution. Much of this belief was written in The Secret Doctrine by Helena Blavatsky. As crazy as this might sound, how close to a truth could this actually be?

The Flood and the Tower of Babel.

Briefly, I will recap two Biblical accounts that directly relate to this belief. In Genesis 6 we are told about the sons of God who saw the daughters of men and took them as wives.

And it came to pass, when men began to multiply on the face of the earth, and daughters were born unto them, That the sons of God saw the daughters of men that they were fair; and they took them wives of all which they chose... There were giants in the earth in those days; and also after that, when the sons of God came in unto the daughters of men, and they bare children to them, the same became mighty men which were of old, men of re-

noun.**Gen 6:1,2,4,5p (KJV)**

The sons of God were fallen angels and the daughters of men were normal human females. They co-habited and their offspring became the mighty men of renown. This was a hybrid half human, half angelic beings referred to in all the cultural accounts of mythology. They were described as bullies and tyrants who were far superior to normal humans in physical strength as well as mental abilities. Either way you want to look at them, Golden Age of the God's or a Satanic contamination, they were the reason for the Great Flood of Noah's time.

In the book of Enoch these same Fallen angels are described as also giving mankind every knowledge of the angels from heaven.

"These are the angels who have descended from heaven to earth, and have revealed secrets to the sons of men, and have seduced the sons of men to the commission of sin...A commandment has gone forth from the Lord against those who dwell on the earth, that their end may be; for they know every secret of the angels." Enoch 63:1 and 64:6

These secrets would be the physics of the eternal realm which mankind was forbidden to have. This was not because God was being repressive, but as a loving parent to a child, he was protecting us from ourselves. It would be like giving a child a loaded gun and expecting him to be responsible. Only an accident would result from such foolishness. Man in his fallen state would not handle this kind of knowledge responsibly either. Someone just gave his children a loaded gun. The flood destroyed this contamination of hybrids and the use of this forbidden knowledge. However in this act of rebellion, enough memory of the knowledge survived to be saved for a later time. That was recorded in the next act of Rebellion, The Tower of Babel.

And it came to pass, as they journeyed from the east, that they found a plain in the land of Shinar; ...And they said, Go to let us build us a city and a tower whose top may reach unto heaven; and let us make a name, lest we be scattered abroad upon the face of the earth. And the Lord came down to see the city and the tower, which the children of men built. Now nothing will be restrained from them, which they have imagined to do. Go to, let us go down and there confound the language of all the earth: and from thence did scatter them abroad upon the face of all the earth."

The next act of rebellion was about 560 years after the flood. As people still lived to be around six hundred years old they were only one generation away from parents who lived in this pre-flood world. God told this generation to disperse into the world, be fruitful and multiply. Instead, with their leader Nimrod they banded together and in the plain of Shinar, began to build a tower. This was the Tower of Babel. It was not a climbing project to climb and pull God down from heaven. In the original Hebrew, the language means they were containing knowledge that could bore or pry an opening into the third heaven. literally they had the information that could breach the space time continuum. This tower was built in a valley, not on the highest point of any nearby mountain top. The builders actually knew they would be dispersed by God and had a contingency plan. If or when this dispersion happened, they would build memorials that would encrypt the knowledge they each group had within them. As the story goes, their languages were changed and they were scattered abroad.

On every continent in every culture, there are so called mystery spots with huge monolithic stone arrangements like Stonehenge, Easter Island, Gateway to the Sun or the Giza Pyramids. Recently it has been noticed by researchers that these monuments have an encrypted skyward representation of the stars from a period of about 6,000 years ago. Measurements are common and called "sacred geometry". This was the contingency plan of the Babel builders and one leader and his band of people understood what they really represented. That man was Adolf Hitler and the Nazis. That was what the SS Ahnenerbe was doing globe trotting around the world, looting museums or visiting these mystery spots collecting data to regroup the knowledge to bring about the people and the technology that existed before the flood. That was the entire occult motivation behind the entire Nazi movement. Right from

the horses mouth I quote Adolf Hitler: For many of you that are familiar with the claimed messages of the "Aliens" you will notice that these quotes mirror the same as the Aliens warnings and message as well as the United Nations agenda and New Ager's goals. It is because they are all one in the same!

Dangers and Greatness ahead:

"Our Revolution is a new stage or, rather, the final stage in an evolution which will end by abolishing history...You know nothing about me; my party comrades have no conception of the dreams which haunt me...the world has reached a turning point; we are now at a critical moment in time...The planet will undergo an upheaval which you uninitiated people cannot understand...What is happening is something more than the advent of a new religion."

Create the New Man

"Anyone who interprets National Socialism merely as a political movement knows almost nothing about it. It is more than religion; it is the determination to create a new man."

"Creation is not yet completed. Man has reached a definite stage of metamorphosis. The ancient human species is already in a state of decline, just managing to survive. Humanity accomplishes a step up once every seven hundred years, and the ultimate aim is the coming of the Sons of God. All creative forces will be concentrated in a new species. The two varieties will evolve rapidly in different directions. One will disappear, and the other will flourish. It will be infinitely superior to modern man. Do you understand the profound meaning of our National-Socialist movement?"

"I will tell you a secret...I am founding an Order. It is from there that the second stage will emerge- the stage of the Man-God, when Man will be the measure and center of the world. The Man-God, that splendid Being, will be an object of worship...But there are other stages about which I am not permitted to speak..."

Globalism with a Caste system

"I had to encourage "national" feelings for reasons of expediency; but I was already aware that the "nation" idea could only have a temporary value. The day will come when even here in Germany what is known as "nationalism" will practically have ceased to exist. What will take it's place in the world will be a universal society of masters and overlords."

"What will the social order of the future look like? Comrades, I will tell you: there will be a class of overlords, and after them the rank and file of Party members in hierarchical order, and then the great mass of anonymous followers, servants and workers in perpetuity, and beneath them, again all the conquered foreign races, the modern slaves. And over and above all these there will reign a new and exalted nobility of whom I cannot speak...But of all these plans the ordinary militant members will know nothing..."

Who or What did Hitler see

"The New Man is living amongst us! He is there! What more do you want? I will tell you a secret: I have seen the New Man. He is intrepid and cruel! I was afraid in his presence!"

One final quote by Hitler suggests that he knew exactly what He and Nazi philosophy would become...

Hitler said: ***"I will become a religious figure"***

Of course Hitler and the Nazis rejected the Bible and saw this movement as the restoration of the Golden Age of the Gods not a fulfillment of prophecy to bring back the pre world flood or as Jesus said,

**For as in the days that were before the flood... so shall also the coming of the Son of man be.
Matt 24:38-39 (KJV)**

Here is the text that describes this very person and his actions. Pictures will save many words as you take a look.

And in the latter time of their kingdom, when the transgressors are come to the full, a king of fierce countenance, and understanding dark sentences, shall stand up.

And his power shall be mighty, but not by his own power: and he shall destroy wonderfully, and shall prosper, and practise, and shall destroy the mighty and the holy people.

And through his policy also he shall cause craft to prosper in his hand; and he shall magnify himself in his heart, and by peace shall destroy many: he shall also stand up against the Prince of princes; but he shall be broken without hand.
Dan 8:23-25 (KJV)

This text of scripture has always been said to be a description of the Antichrist and perhaps it is, but in context that is only a guess. There is nothing contextual that says it is. It is more than obvious how Hitler is the completion of this text. Whoever or what ever label you want to give Hitler, that should not throw you off from his description of this historical person completing this part of human history. Without a final label assignment consider this and a few other scriptures.

Unlike any predecessor, Hitler understood the occult in terms of physics and technology. In the most unorthodox manner his scientists, engineers and occult specialists like Heinrich Himmler and many more brought about the beginning of this return. Even the symbol that is synonymous with the Nazi's was barrowed from Blavatskiy's writings as the sign of the sun wheel. This symbol was given to the Aryan, being the offspring of the god's as their personal icon. Could this be why the swastika is a global symbol found in all ancient cultures? Is

the swastika actually the sign of the hybrid / human fallen angels described in the Bible? If not , then who else in all of human history could claim that same connection? By process of elimination, there is no other groups that even come close to this. This is just another indication as to how we are quickly coming full circle to the pre-flood days in our own time.

i

Some of the occult knowledge he will understand concerns the ability to change fixed times. Is this just the rearrangement of holidays and judicial laws as all commentaries explain? Or is something more supernatural going on here. The original language could mean either, but suggests in context, that something more in the way of a literal manipulation of time as we know it, a law that is supposed to be exclusively God's power and ability is being done by this man of sin, (a law breaker) as described in. Daniel 7:25.

And he shall speak great words against the most High, and shall wear out the saints of the most High, and think to change times and laws: and they shall be given into his hand until a time and times and the dividing of time...and they shall be given into his hand until a time and times and the dividing of time.
Dan 7:25 (KJV)

And he changeth the times and the seasons: he removeth kings, and setteth up kings: he giveth wisdom unto the wise, and knowledge to them that know understanding: Dan 2:21 (KJV)

The two underlined words in both verses is the same Aramaic word Zemen #2166 an appointed time from the prime root of Zamen #2163 meaning "to fix" (a time)

From these definitions we are not talking about seasonal changes or holidays as there is a law being changed also and that is not a judicial man made law but a law of known physics set by God that is changed. Notice that it will be given to him to accomplish for a short period of time.

This next scripture describes the end of World War II and the placement of the Nazi infrastructure into the US.

But he shall have power over the treasures of gold and of silver, and over all the precious things of Egypt: and the Libyans and the Ethiopians shall be at his steps. But tidings out of the east and out of the north shall trouble him: therefore he shall go forth with great fury to destroy, and utterly to make away many. And he shall plant the tabernacles of his palace between the seas in the glorious holy mountain; yet he shall come to his end, and none shall help him. Dan 11:43-45 (KJV)
